SUMMER ON THE LAND

Each summer North Coast Land Conservancy invites the public to experience our conserved lands at guided outings, volunteer stewardship days, and special events. In 2019 we are celebrating the 15th anniversary of Circle Creek Conservation Center: 364 acres of floodplain and forest between the Necanicum River and Tillamook Head. All events are free unless noted.

Circle Creek Conservation Center (CCCC) is open to the public during daylight hours, year-round, conditions permitting. From US 101, 0.7 mile north of the junction with US 26, turn west on Rippet Road and continue to the big barn at the end of the road.

Visit NCLCtrust.org for more details and to register.

JUNE

Saturday June 1 10 AM–1 PM | CCCC
