

## Great Coastal Backyard Bird Count 2020

A total of 77 bird species were identified, plus a few that were named to genus but not species (such as "wren" or "sparrow"). A few Portland-area birders participated; that explains the California Quail. Birds are listed in order of the number of people who reported seeing at least one of that species.

Steller's Jay (27)	Savannah Sparrow (3)
American Robin (23)	Violet-green Swallow (3)
Black-headed Grosbeak (20)	Western Gull (3)
American Crow (19)	Wood Duck (3)
